SPECIAL BONUS SESSION!!

...immediately following
ET’s session,

Dr. Kathy Doig, will share proven
strategies for successfully taking the
dreaded multiple choice exams!

WHAT:	TEST TAKING <u>SKILLS</u> WORKSHOP
WHEN:	TUESDAY, NOVEMBER 17TH
WHERE:	ERICKSON, KIVA
TIME:	8:15—9:00 PM

Dr. Kathy Doig is professor in Biomedical Laboratory Diagnostics. She is a three time graduate of Michigan State University with her PhD in Adult and Continuing Education. Dr. Doig is board certified in Medical Laboratory Science (that’s medical laboratory testing) with a specialty in hematology (blood cells) - that means she has been successful in course and national standardized tests herself. She is former chairperson of the national board examination council for medical laboratory professionals, so she has lots of experience with test writing. That’s what got her interested in **helping test takers**. She has provided workshops like this for students at MSU and for others preparing for their national board exams.

THIS EVENT IS SPONSORED BY THE OFFICE OF CULTURAL & ACADEMIC TRANSITIONS, THE COLLEGE OF SOCIAL SCIENCE, THE COLLEGE OF NATURAL SCIENCE, AND THE BRODY NEIGHBORHOOD STUDENT SUCCESS COLLECTIVE.
